Economical And Practical

## WIDE DOCTOR TRAY

It can be place various instrument, The handpiece hanging holder can be rotated

### Stable side box

External double water bottle easy to disassemble and provides sufficient water for treatment .

### Rotatable armrest

The curved armrest design, can be rotated 90°, easy for patients to get on and off the chair.

## CONCENTRATE ON DETAILS

### LED reflector lamp

It has 3- aixe rotation , can be quickly positioned and easily illuminate on jaw.

### High quality ceramic spittoon

It can rotate 90°, which is convenient for spitting, and easy for disassemble, cleaning and disinfection.

### 标准配置

冷、热三用喷枪	2 套
LED 口腔灯	1 套
24V 观片灯	1 套
蒸馏水系统	1 套
自动水杯和冲盂系统	1 套
静音电机牙科椅	1 套
SL-8100-1 医生椅	1 套
强弱吸系统	1 套
器械盘	1 套
脚控开关	1 套

### 选配

内置洁牙机	1 套
内置光固机	1 套
高速手机 (4 孔 /2 孔 )	1 套
低速手机 (4/2 孔 )	1 套

## INNOVATION LEADS FASHION

## STYLISH BACKREST

Made of aluminum alloy, it has good wrapping properties, allowing doctors to be closer to patients during treatment.

### Aluminum alloy base

Use solid materials, making the dental chair more stable and strong

### External water bottle

Large-capacity design makes it easy to add water and clean the water bottle.

### Practical assistant table

It can be rotated 90°, and switch European or American suction tubes, making it convenient for assistants.

### American instrument tray

Equipped with food-grade stainless steel tray, which can be disassembled and rotated 360°

SL8500 Basic  
High Performance

Option

- Built-in scaler 1set
- Built-in light cure 1set
- High speed air turbine handpiece 1set
- Low speed air motor handpiece 1set
- Intra oral system 1set
- Assistant stool 1set
- Top mounted instrument tray 1set

Instrument tray  
connecting arm

The arm is connected below the seat, making the center of gravity more stable. The cross arm does not cross the seat, which can reduce the patient's sense of depression and fear.

WE FOCUS MORE ON DEVELOPING  
PRACTICAL FUNCTIONS

**Handpiece differential pressure valve**  
differential pressure control valve to avoid water leakage from the handpiece caused by insufficient air pressure.

**Handpiece pressure regulating valve**  
Ensures that the handpiece has sufficient air pressure and flow, providing continuous strong power for the handpiece.

6-bulbs oral lamp

Equipped with double button-sensitive switches, which can switch between warm / cold /warm&cold light and adjust the intensity steplessly.

Main control key pad

The simple button panel makes the operation more user-friendly.

THE BASE IS  
MADE OF  
ALUMINUM  
ALLOY

The aluminum alloy base does not deform, making the dental chair more solid, and less likely to shake during treatment.

Aluminum  
Alloy Base

Made of aluminum alloy using high-temperature baking paint technology, it will not rust or deform.

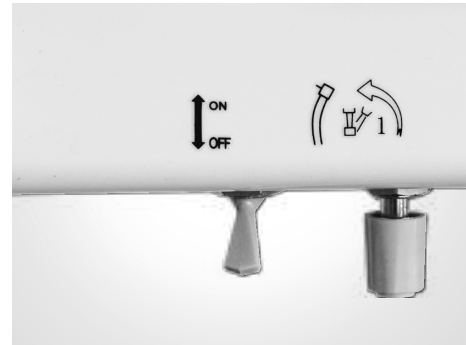

Food-grade storage mat

made of fiberglass, good corrosion resistance, non-slip and durable.

General Switch

It can control the status of water air and electricity, safe and efficient.

Multi-functional foot pedal

It can control the chair lifting, backrest , handpiece status and cuspidor flushing.

Preferred mirco fiber leather

Environmentally friendly material, which is soft and skin-friendly, wear-resistant and dirt-resistant, and has good breathability.

Medical four-hand operation  
Rotating box

It adopts fashionable design lines and can be rotated 45 degrees outward to facilitate four-handed operation by doctors and nurses.

CLASSIC EUROPEAN  
INSTRUMENT TRAY

Invisible handle design, equipped with 6-position handpiece holder, which can place various small accessories.

*The large and practical instrument tray, with simple operating system, facilitate the smoothness of treatment.*

LED luxury reflector light

The three-axis rotating LED reflector light can switch between yellow and white light, can be quickly positioned, and the light spot is clear.

External filter

It is convenient to clean the impurities in the filter to avoid clogging of the filter.

European-style assistant  
table

wide and simple, double-joint design, can easily rotate 120 degrees.

Diamond-shaped backrest

convex design, giving good support to the patient's waist. When the doctor needs lateral treatment, it can shorten the distance between the doctor and the patient.

Medical four-hand operation  
Rotating box

It adopts fashionable design lines and can be rotated 45 degrees outward to facilitate four-handed operation by doctors and nurses.
