Two-way Temperature

Using the unique cross-section technology, the antibacterial heat/cooling sensation masterbatch is twisted into the absorbent yarn, so that it produces warm/cooling sensation with the change of human body temperature, and the performance and handfeel will not be degraded because of many times of washing, and the fabric has the special efficacy of bi-directional thermoregulation, anti-bacterial, moisture-absorbent and sweat-absorbent, anti-static and anti-pilling.

Specialty Fabrics

Wrap Towel Fabrics for Operating Rooms

Blending Series-Plain

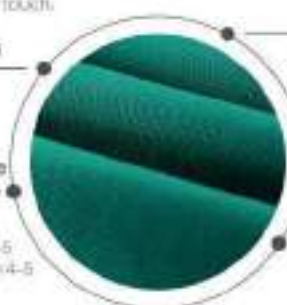

This series of polyester/cotton poplin is made of polyester staple fibre and high quality cotton fibre blended into yarn, woven, printed and dyed fabric. It has the look and feel of cotton fabric, but at the same time has the high strength of polyester, which improves the tearing strength of the fabric and has good colour fastness. The fabric is breathable, soft and comfortable to the touch.

Fabric composition

Composition: T65/C35
Texture: Plain

Fabric Performance Test

Colour fastness to water 4-5
Colour fastness to abrasion 4-5
Colour fastness to perspiration 4-5
Formaldehyde-free

Fabric features

- It has the look and feel of cotton, and the high strength of polyester at the same time.
- Smooth surface, fine texture, good colour fastness.
- Comfortable and breathable, soft handfeel.

Special features of fabrics

- Fine and smooth fabric surface
- Good colour fastness
- Comfortable and breathable

Worsted Series-Twill

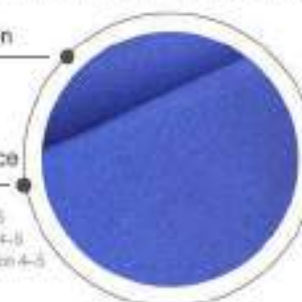

Cotton twill yarn card, using high quality cotton, green environmental protection, chlorine bleaching resistant dyes, the cloth surface is smooth, breathable, good perspiration, suitable for surgical gowns and a variety of surgical accessories.

Fabric composition

Composition: 100%C
Texture: Twill

Fabric Performance Test

Colour fastness to water 4-5
